Harrison Corp.
(R. C. 60)

40. C. The first sentence of the passage states that the author is "not a fan of the term 'cognitive bias'." The author then explains that the term is "overused" and "vague." The author also states that the term is "often used to describe a wide range of phenomena, from the well-documented 'confirmation bias' to the more obscure 'availability bias'." The author concludes that the term is "too broad to be useful."
